

Coming soon. Internet that upgrades everything.

Built on a reliable 100% fiber network
for a powerful connection. Don't settle for less.

Uploads as fast as downloads
because it's just as important to send, share, game, and video chat as it is to download and stream. Cable technology doesn't offer that!

Hyper-gig speeds
to support the devices of today and tomorrow.

Consistently fast
even during peak usage times.

Based on wired connection to gateway.

Includes unlimited data

Hyper-fast internet is coming to your area

Frequently asked questions:

What is AT&T Fiber®?

AT&T Fiber is our premium hyper-fast internet service delivered over fiber optic cable. This is different from traditional cable internet. Fiber has the potential to transmit data at faster speeds than DSL or cable-based internet. In particular, AT&T Fiber can deliver speeds up to 5-Gigs*.

What is AT&T doing in my neighborhood?

We are working hard to bring this cutting-edge technology directly to more homes. Our signs and doorhangers further inform residents of what to expect from this exciting network upgrade.

How long will construction take?

Our crews will work as fast and efficiently as possible. Timing to complete depends on the size of the neighborhood, terrain, and existing infrastructure. You can count on us to minimize any disruption to your neighborhood.

*Limited availability in select areas. Fastest among major internet service providers, based on 5Gbps offering. Internet speed claims represent maximum wired network service capability speeds to the home and recommended setup. Actual customer speeds are not guaranteed. Single device wired speed maximum 4.7Gbps. For more information go to att.com/speed101. 2506782
