James A. Garfield National Historic Site

8095 Mentor Ave., Mentor, OH 44060

Situated on nearly 8 acres along Mentor Ave., James A. Garfield National Historic Site honors the 20th President of the United States and Mentor resident James A. Garfield at this National Park found in the heart of our community.

James A. Garfield lived in this home, the centerpiece of his sprawling farm, from 1876-1881. After his assassination, his family continued to reside here, and the home was occupied until 1934. The President's widow, Lucretia, added the nation's first presidential library to the house in 1885-86.

National Park Service Rangers and Volunteers provide guided tours of the Garfield House, which has been restored to its appearance of the era of 1886-1910.

The Garfield Home boasts a collection of artifacts that are over 80% original to the Garfield Family.

An on-site Visitor Center is home to various displays highlighting key aspects in the life and times of James A. Garfield and the Garfield Family. Visitors can also view a biographical film about James A. Garfield in the theater located inside Visitor Center. There is no charge to view the exhibits or the film in the Visitor Center, but there is a charge to take a guided tour of the Garfield House.

National Park visitors will find James A. Garfield National Historic Site's official National Parks Passport stamp in the Visitor Center, and a bookstore inside the Visitor Center has a variety of books and other items related to James A. Garfield.

For additional information about the James A. Garfield National Historic Site, please visit [nps.gov/jaga](https://www.nps.gov/jaga) or call (440) 255-8722

Mentor Marsh

Marsh House, 5185 Corduroy Road, Mentor, OH 44060

Mentor Marsh occupies the ancient river bed of the Grand River. In the past, the river flowed into Lake Erie at the site of the present Mentor Lagoons. Today, the Grand River flows into Lake Erie between the communities of Grand River and Fairport Harbor.

A series of trails and overlooks within diverse habitats are open to the public free of charge from dawn to dusk. Visitors should remember that wetland areas at this nature preserve may at times be muddy. Please dress accordingly.

While in this area of the Mentor Headlands, please visit the Headlands Dunes State Nature Preserve along Lake Erie at the eastern border of Headlands State Park (northern terminus of SR 44).

A large variety of wildlife can be observed within the Mentor Marsh and Headlands Dunes State Nature Preserves. Birding is especially good during the spring and fall migrations. It is not unusual for expert birders to hear or see in excess of 125 species of birds in a single morning during the spring migration.

Botanizing the forest, marsh, and dunes habitats will yield hundreds of species of plants for the keen observer. The spring wildflowers are abundant in the School Woods near the Newhouse Overlook. In good years, migrations of monarch butterflies can be fantastic on the dunes at Headlands Dunes State Nature Preserve and in the meadows along the Kerven Trail.

Our beautiful trails await your arrival.

FOLLOW THE BLUE BLAZES

The 1,400-mile Buckeye Trail loops through Ohio traversing park lands, nature preserves, historic site and country roads providing hikers a unique view of the Buckeye State. Blue blazes mark the way guiding folks along the approximately 12-mile stretch of trail in Mentor leading hikers through Civic Center Park on the way to beautiful views of Lake Erie.

Headlands Beach State Park is the northeast terminus for the Buckeye Trail. The park features Ohio's largest natural sand beach (over a mile long!), a nature preserve, fishing opportunities, paved bike path, picnic areas, concession and public restrooms

The City of Mentor is proud to be a Buckeye Trail Town. Learn more at cityofmentor.com/hiking.
