Hand Delivered

Dear Customer:

Subject: Midland Fire Hydrant Relocation

In connection with the above-referenced hydrant relocation for the Midland Storm Sewer Improvement Project, please be advised that water service for Aqua Ohio customers will be temporarily interrupted on **Thursday, March 30th from 9:00 A.M. until 12:00 P.M.** This interruption is necessary to complete this hydrant relocation. We are hopeful your water service will only be interrupted during this time period, however, this is subject to change.

- Draw in advance all the water you feel you will need during the shut down.
- Be sure in advance that your waterlines are shut off by closing a valve either at your hot water heater, your water meter or where your waterline enters your building.
- Call this office in advance if you have any questions or problems relating to this shut down.

We appreciate your patience during the completion of this waterline work and if you have any questions, please contact our Customer Service office at 1-877-987-2782.

Sincerely,

AQUA OHIO, INC.

Sue Pawlowski
Construction Coordinator
