Re: Rice Detention Basin

Dear Resident or Property Owner:

Please be advised that construction will commence on the Rice Detention Basin project (located south of the Dale R. Rice Elementary school, between Chase Drive and Brooks Boulevard) beginning the week of September 26, 2018. The scope of work for this project includes the creation of a stormwater management basin to attenuate peak flows during large rain events. This detention basin will reduce the frequency of roadway and basement flooding for residents within the Martin-Ohm watershed downstream from the basin. For your convenience, a site plan has been included to illustrate the approximate limits of construction associated with the project.

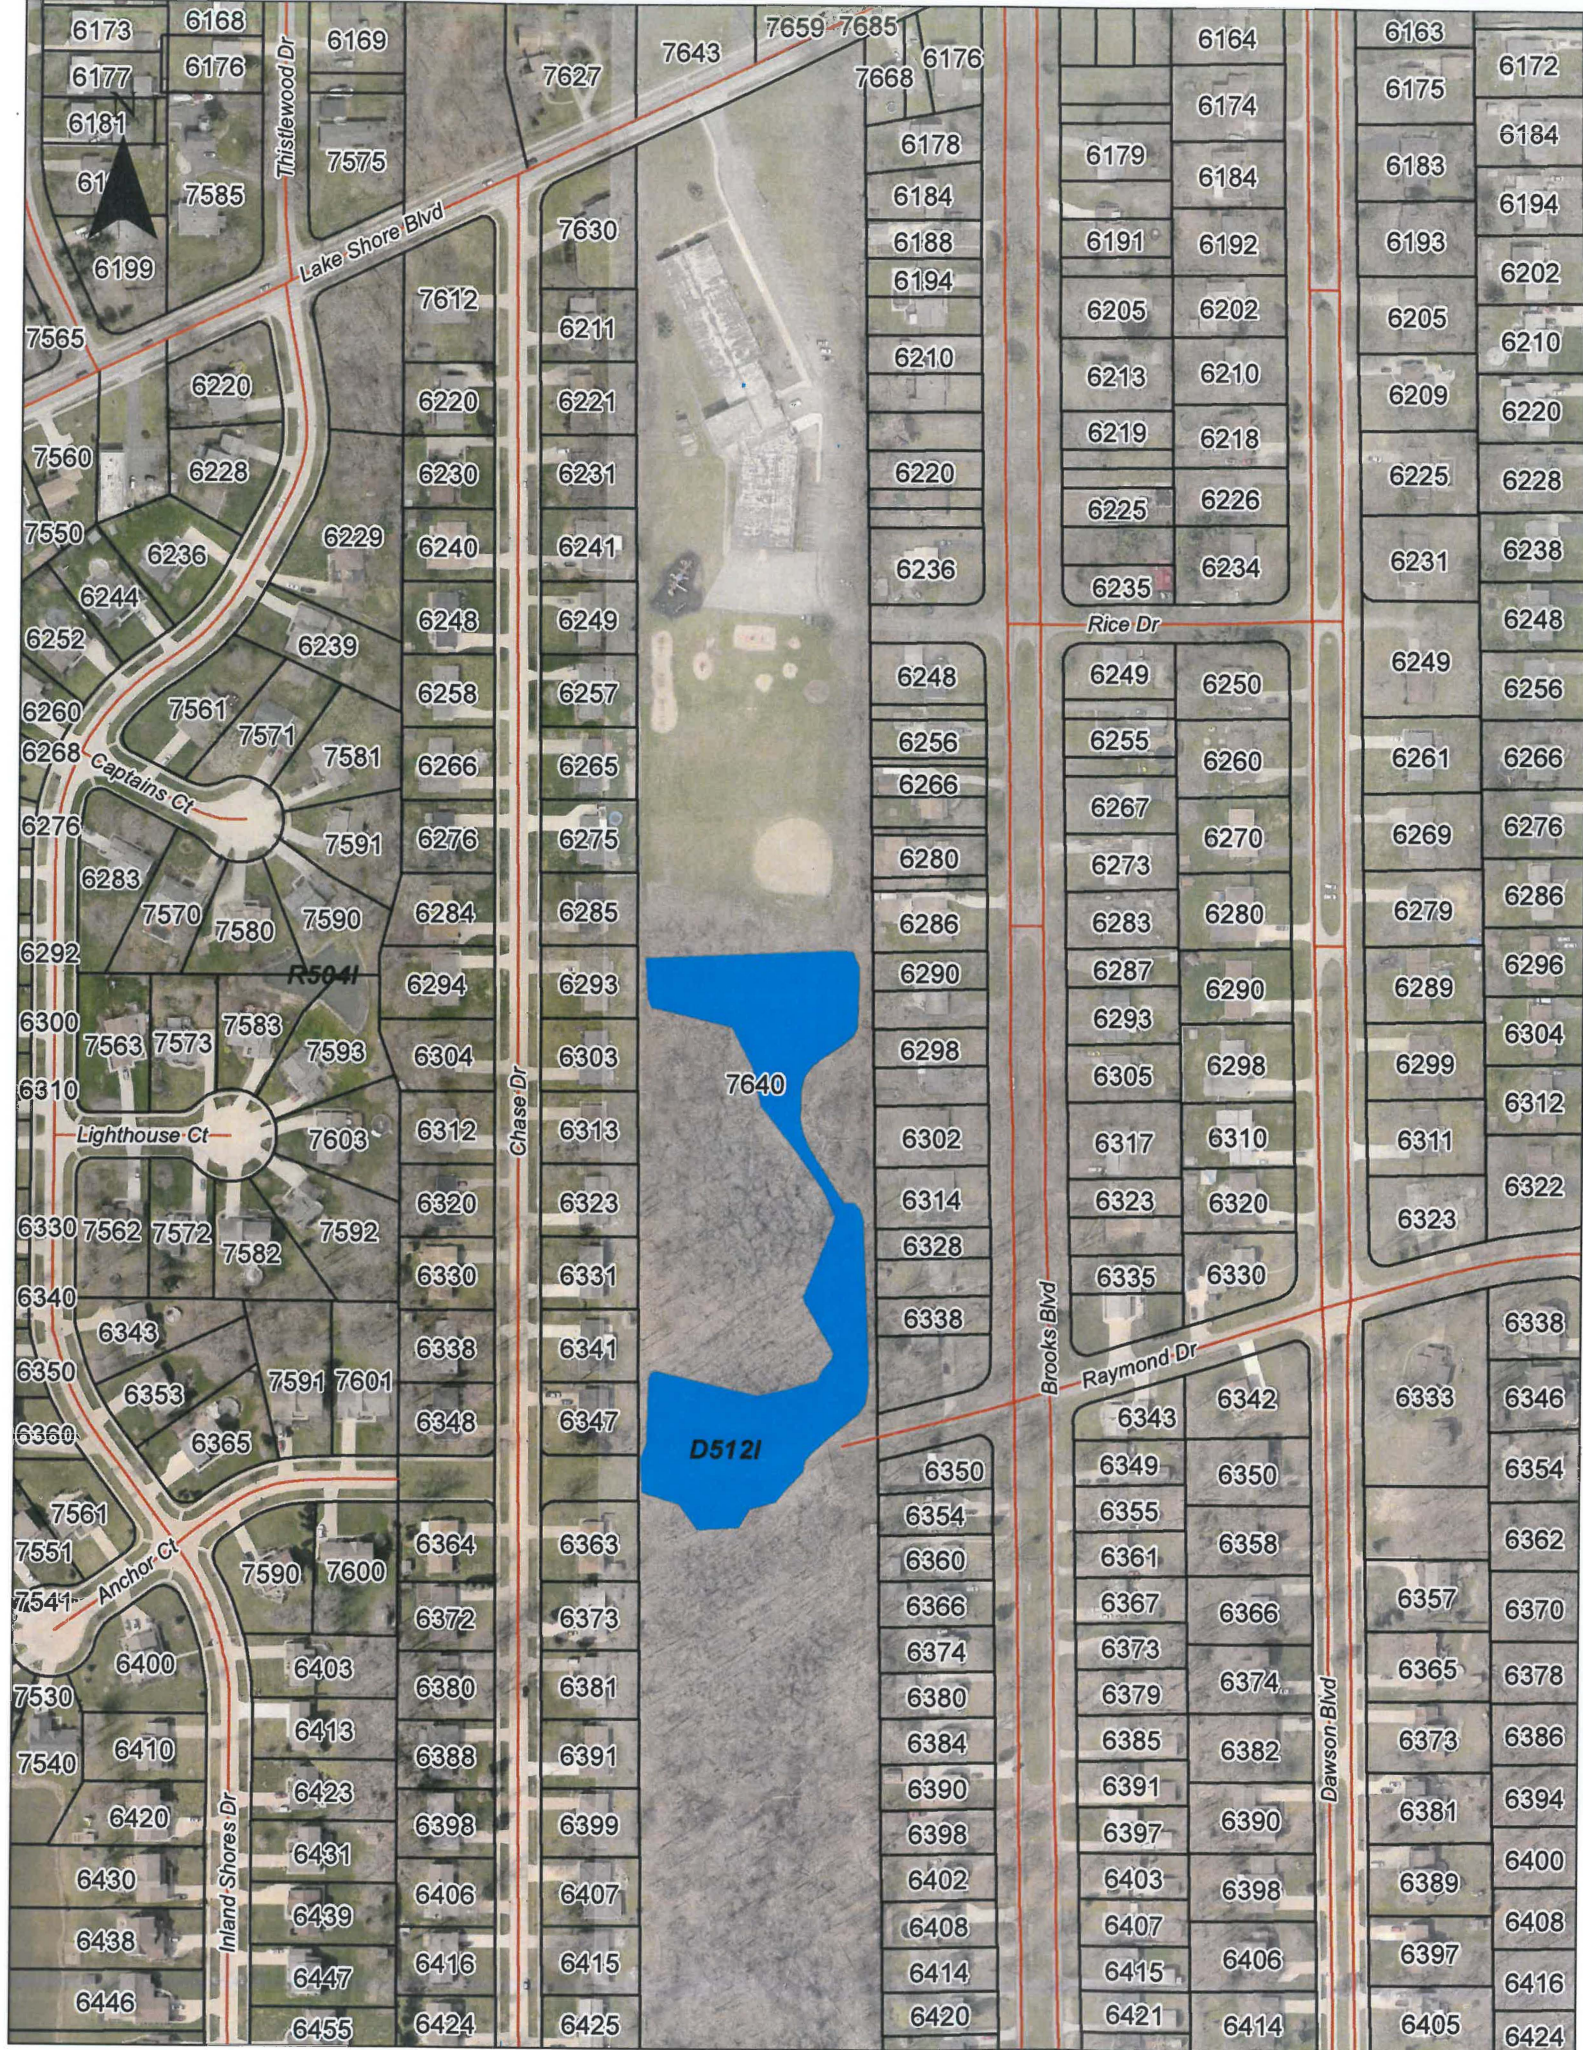

You may experience minor short-term delays while our equipment and trucks are working in the roadway. However, two-way traffic and access to your property will be maintained at all times. As with any construction project there are invariably going to be certain inconveniences. Our contractor, JTO Inc., will make every effort to keep these inconveniences to a minimum.

If you have questions, please do not hesitate to call Tim McParland (City of Mentor) at (440) 974-5741 or Daniel Bonham (CT Consultants) at (440) 530-2257 during normal working hours. For after hour concerns, please contact Leong Tang of JTO, Inc. at (440) 221-9879.

Sincerely,

Tim J. McParland, E.I.
Civil Engineer – Stormwater
